

Jagan R

Java Backend Developer — Software Engineer

+91 6380515557 — jaganjagan37571@email.com — LinkedIn — GitHub — LeetCode

PROFESSIONAL SUMMARY

Computer Science Engineering student building backend and full-stack applications with **Java, Spring Boot, REST APIs, SQL, and React.js**. Shipped a full-stack finance application spanning API design, database integration, and cloud deployment. Solid foundation in **Data Structures & Algorithms, OOP, and DBMS**; 200+ problems solved on LeetCode.

TECHNICAL SKILLS

Languages: Java, Python, SQL, JavaScript

Backend & APIs: Spring Boot, Spring Framework, RESTful Web Services, CRUD Design, JWT Authentication

Frontend: React.js, HTML5, CSS3

Databases: MySQL, MongoDB Atlas, Firebase

Tools & Cloud: Maven, Gradle, Git, GitHub, Render, Firebase Deployment

Core CS: Data Structures & Algorithms, OOP, DBMS, Exception Handling, SDLC

PROJECTS

Money Manager – Full-Stack Finance Application *Java, Spring Boot, React.js, MongoDB*
2025

- Built a full-stack personal finance app with **Java/Spring Boot** backend and **React.js** frontend covering income, expense, category, and reporting modules.
- Designed **RESTful APIs** for transactions, categories, and reports with input validation and centralized exception handling.
- Integrated **MongoDB Atlas** for persistent storage and deployed the backend on **Render** for continuous availability.
- Added an AI-assisted module using an LLM API to generate spending summaries and budget insights from transaction data.

E-Commerce Web Application Live Demo 2025

- Built a full-stack e-commerce app with **JWT-based authentication**, product catalog, and cart management.
- Implemented **REST APIs** and CRUD operations for products and cart; integrated **WhatsApp-based order placement** in place of a payment gateway, sending order details directly to the seller.
- Deployed the application live on Render for public access.

Offline Data Analytics System GitHub 2024

- Built an offline-first data collection tool that captures and stores data locally without continuous connectivity.
- Implemented local storage with automatic sync-on-reconnect logic, validated against sample test datasets.

EDUCATION

B.E. Computer Science and Engineering Expected 2027

P.A. College of Engineering and Technology, Anna University — **CGPA: 7.73 / 10**

CODING PROFILE

LeetCode: leetcode.com/u/jaganpacet — 200+ problems solved, focused on Data Structures and Algorithms in Java.
