Professional Summary

Aspiring Software Engineer with strong foundations in Data Structures and Algorithms, Object-Oriented Programming, and Backend Development. Hands-on experience in building scalable web applications and RESTful APIs through academic and hackathon projects. Passionate about problem solving, clean code practices, and software development lifecycle (SDLC).

Technical Skills

- **Languages:** Python, Java
- **Web Technologies:** React, HTML, CSS, REST APIs
- **Database:** SQL
- **Tools:** Git, GitHub
- **Core Concepts:** Data Structures, Algorithms, OOP, Backend Development, Problem Solving
- **Typewriting:** Senior Grade (English) – Passed with Distinction

Experience

Hackathon Projects

2024 – Present

- Developed software solutions in competitive environments, focusing on scalability and performance.
- Designed and implemented backend logic, REST APIs, and database structures.
- Collaborated with team members using version control (Git) to deliver functional prototypes.
- Applied problem-solving and algorithmic thinking to real-world use cases.

Projects

Portfolio Website

GitHub

- Built a responsive personal portfolio using modern web technologies.
- Improved user experience through optimized layout and performance.

E-Commerce Web Application

GitHub

- Developed a full-stack application with authentication and product management features.
- Implemented RESTful APIs for efficient frontend-backend communication.

Offline Data Analytics System

GitHub

- Designed a system supporting offline data entry and synchronization.
- Ensured reliable data processing in low-network environments.

AI Fitness Assistant

GitHub

- Contributed to backend development for a machine learning-based application.
- Integrated APIs to support personalized fitness recommendations.

Education

B.E. Computer Science and Engineering P.A College of Engineering and Technology (Anna University)
Expected 2027

Additional Information

- Active problem solver on LeetCode with focus on Data Structures and Algorithms.
- Strong interest in backend systems, scalable applications, and software engineering roles.
